The mission of the public education system of this state is to ensure that all Texas children have access to a quality education that enables them to achieve their potential and fully participate now and in the future in the social, economic, and educational opportunities of our state and nation. That mission is grounded on the conviction that a general diffusion of knowledge is essential for the welfare of this state and for the preservation of the liberties and rights of citizens. It is further grounded on the conviction that a successful public education system is directly related to a strong, dedicated, and supportive family and that parental involvement in the school is essential for the maximum educational achievement of a child.

The State of Texas Public Education Goals

- GOAL 1: The students in the public education system will demonstrate exemplary performance in the reading and writing of the English language.
- GOAL 2: The students in the public education system will demonstrate exemplary performance in the understanding of mathematics.
- GOAL 3: The students in the public education system will demonstrate exemplary performance in the understanding of science.
- GOAL 4: The students in the public education system will demonstrate exemplary performance in the understanding of social studies.

The State of Texas Public Education Objectives

- OBJECTIVE 1: Parents will be full partners with educators in the education of their children.
- OBJECTIVE 2: Students will be encouraged and challenged to meet their full educational potential.
- OBJECTIVE 3: Through enhanced dropout prevention efforts, all students will remain in school until they obtain a high school diploma.
- OBJECTIVE 4: A well-balanced and appropriate curriculum will be provided to all students.
- OBJECTIVE 5: Educators will prepare students to be thoughtful, active citizens who have an appreciation for the basic values of our state and national heritage and who can understand and productively function in a free enterprise society.
- OBJECTIVE 6: Qualified and highly effective personnel will be recruited, developed, and retained.
- OBJECTIVE 7: The state's students will demonstrate exemplary performance in comparison to national and international standards.
- OBJECTIVE 8: School campuses will maintain a safe and disciplined environment conducive to student learning.
- OBJECTIVE 9: Educators will keep abreast of the development of creative and innovative techniques in instruction and administration using those techniques as appropriate to improve student learning.
- OBJECTIVE 10: Technology will be implemented and used to increase the effectiveness of student learning, instructional management, staff development, and administration.

Recruit, support and retain teachers and principals

Build a foundation of reading and math

Connect high school to career and college

Improve low-performing schools

Increase transparency, fairness and rigor in district and campus academic and financial performance

Ensure compliance, effectively implement legislation and inform policymakers

Strengthen organizational foundations (resource efficiency, culture, capabilities, partnerships)

Equity Plan[ESSA Sec. 1112(b)(2)]: Junction ISD has a higher percentage of inexperienced teachers in the Title 1 campus compared to the State average. The experienced teachers that Junction ISD has on campus have been with the district for many years and are not transfer teachers from other districts. Many started their career at Junction ISD and will end their career at Junction ISD. Many of the experienced teachers likely started at Junction ISD as an inexperienced teacher. As experienced teachers retire there are not a high number of experienced teachers that apply to Junction ISD. Junction ISD is a rural community and does not pay teachers the equivalent of a larger school in the city. Often times the teachers hired at Junction ISD are teacher aides going back for certification, a young person in the community with a degree that decides to go back for certification, and/or a young teacher out of college looking for a job. Many experienced teachers don't come to Junction, after working many years in another district, seeking a teaching assignment unless they are moving to Junction because it's their hometown, or transferring with a coach or spouse. In the upcoming years there will be high turnover of experienced teachers and the likely pool to replace them will be inexperienced teachers. First we are looking at experienced vs. inexperienced as described in the definition as number of years, but Junction ISD should also consider whether or not a teacher is staying up to standards with being highly gualified or not. This brings to conclusion that rather than inexperienced vs. experienced we should look at ineffective vs. effective teaching. Recognizing that experience does not always equate with effectiveness and vice versa. In looking at effective teaching Junction ISD should consider years of experience, but also performance, student learning and student engagement. While looking at inexperienced teachers by number of years, Junction ISD has a high percentage of inexperienced teachers working with students, but when looking at effective vs. ineffective teaching that number could be higher. Junction ISD wants every student to have the same opportunity as any other student; being taught by an effective teacher supported by an effective principal. There are a lot of things to look at when defining an effective teacher: one who is highly qualified and an expert, one who can raise students cognitive achievement test scores above the average, one who has many years experience, one who inspires resilience, one who has a love for learning, one who works to improve and shares among peers, and possibly all of these. Junction ISD will provide more equitable access to effective teachers by closing the gap. In this plan, Junction ISD will explore ways to close the gap.

Poverty Criteria[Sec. 1112(b)(4)]: Junction ISD determines Title I eligibility and rank/serve order through number of children eligible for free and reduced-price lunches and Direct Certification for the Community Eligibility Provision (CEP) under the National School Lunch Program.

Schoolwide Programs[Sec. 1112(b)(5)]:

Junction ISD utilizes Title 1, Part A funds for schoolwide programs. The goal of the program is to improve the academic performance of all students, particularly the lowest -achieving students, students at risk of not meeting the state student academic achievement standards, students who are members of the target population of any program a campus includes in its schoolwide program. Funding is used for intervention instruction and materials for all students. Junction ISD concurs with evidence that shows it is possible to create campuses in which all students achieve high standards, even when most are poor or disadvantaged. Junction ISD has made significant changes in order to meet all needs based on comprehensive needs assessment.

Targeted Participants[Sec. 1112(b)(5)]: Junction ISD has a large population of Special Ed students and a high number of Special Ed students performing below average on the STAAR in all subject areas. Junction ISD will use the Response To Intervention (RTI) pre-referral process used by educators to help students who are struggling with a skill or lesson; every teacher will use interventions (a set of teaching procedures) with any student to help them succeed in the classroom; it is not just for children with special needs or a learning disability. Junction ISD will implement an effective intervention system that is strategic and prescriptive. The RTI process will appropriately identify Special Ed students for testing. After a student is identified over a six month period they will be tested by a diagnostician and placed in Special Ed if needed. In the short term training is priority for all teachers in the RTI process; using appropriate intervention strategies and software. Implementation will include standardized process for referrals, data walls, and formative assessments. Results will include teacher led data meetings and sharing strategies and assessments. With an effective intervention system in place Junction ISD will increase student outcome by appropriately targeting interventions, having more consistent data to assess, and students' knowledge and skills will improve. Overall, student success on State assessment will improve and Special Ed will decrease.

Homeless Students [Sec. 1112(b)(6)]: Junction ISD has designatedLupita Sanchez as the District Local Homeless Education Liaison. Junction ISD ensures that each child of a homeless individual and each homeless youth has equitable access to the same free, appropriate public education, including a public preschool education, as provided to other children and youths. Junction ISD ensures that homeless children and youths are provided the same free, appropriate public education as provided to other children and youths.

School Parent & Family Engagement Policy[ESSA Sec. 1116(b)]: Statement of Purpose

Junction ISD is dedicated to facilitating a lifelong learning process where every student is a successful learner through family support for students, awareness of social values, academics, and strengthening of family dynamics through a positive link between school and home. Junction ISD will involve parents in all required aspects of Title I as well as other grant programs requiring parental involvement.

Development of Parental Involvement Policy

A District advisory council comprised of parents, community members, teachers, business leaders, and administrators will meet in an open forum to compose and design an implementation process for the District Parent Involvement Policy. The open forum will take place during a regularly scheduled District Site Based Meeting held at a convenient time for all parties involved.

Title I

JISD Elementary School, Junction Middle School and Junction High School are all Title 1 Campuses. For each JISD campus to be classified as a School Wide Title I program the student population must be greater than 40% eligible for the free and/or reduced lunch program for the 2019-2020 school year. Junction ISD eligibility percentage is approximately 65%. The primary function of the Title I program is to improve the basic educational program. Due to Junction ISD campuses being School Wide, this program can serve all students on all campuses. Title I Law requires that:

- School districts have a written Parental Involvement Policy
- Parents be involved in the design, operation and evaluation of Title I
- Parents be consulted about school activities and be trained on how to help their children
- Whenever possible, activities should be presented in the language spoken at home

Parents of students attending any of the Title I schools have the right to know the professional qualifications of the teachers in their child's classroom(s). In addition to qualifications, parents also have the right under ESSA to request the following:

- A teacher's state qualifications and licensing criteria for the grades and subject he/she teaches
- The status of the teacher's certificate
- The teacher's college major, whether the teacher has an advanced degree, in the field of their certification or degree
- The qualifications of paraprofessionals serving your student

The Title I program is designed to build school and family relationships supporting a partnership to improve student academic achievement in:

- Knowledge of content standards and student achievement standards established by the State of Texas
- Knowledge of the process for monitoring student progress
- Professional Development for campus staff regarding how to reach out to, communicate with, and work with families as equal partners, including the value of families and how to implement and coordinate family programs by offering opportunities to be involved in school events
- Providing user and language friendly format to ensure the information related to the educational process is presented clearly and uniformly

Examples of Title I communication are listed below:

- Parental Involvement Policy
- School-Parent Compact
- Newsletters
- Website (able to be translated into multiple languages)
- Progress reports
- Fall Parent Conferences
- Spring/Fall Parent Meetings

School-Parent Compact

Each campus will develop a school-parent compact (agreement) with the parents of the students. This compact will be reviewed and revised annually. Contents of the compact will include information about how students, parents/guardians, and staff will share responsibility for promoting student achievement. Compacts encourage students, parents/guardians, and school personnel to collaborate toward impacting student achievement in a positive way.

Parental Involvement Opportunities

Junction ISD will support a variety of ways for parent(s) to actively be involved in the student's learning, development, and achievement. At each of the district's three campuses, parents may contribute through volunteer programs and create a positive and supportive home atmosphere. Some examples of opportunities for parent and community involvement, include but are not limited to:

- Migrant/Title I meetings
- District Site Based Committee
- Campus Site Based Committee
- Parent Conferences
- Field Trips
- Awards Assemblies and Grade level Programs at JISD
- Parent/Teacher Organizations
- Academic, Fine Arts and Sports Programs

Evaluation

An evaluation of the Title I program will be conducted annually and will include questions pertaining to the effectiveness of the program. The results of this survey will be complied and used in the evaluation of the Title I program during the district's and campuses' Needs Assessments in the spring of each year. The District Site Based Committee will meet in the spring to review the Title I program and evaluate, revise and renew the Parent Involvement Policy and Title I program.

School-Parent Compact[ESSA Sec. 1116(d)] Junction ISD assumes the responsibility to provide an effective learning environment through which parents are involved. Parents are responsible for viewing the school website, signing up for Remind to receive notifications, and/or reading student folders or contacting school campuses for information. Parent-teacher conferences in the elementary are completed in the early Fall and are extremely important so that teachers and parents can meet and visit about expectations and needs. Throughout the year teachers communicate with parents regarding their child's progress.

All parents and guardians have reasonable access to staff, volunteer opportunities and observation of classroom activities. Junction ISD ensures two-way, meaningful communication.

Build Capacity for Involvement[ESSA Sec. 1116(e)] Junction ISD provides assistance in understanding academic standards and assessment and how to monitor child's progress using the Ascender Parent Portal. All parents, guardians and students have access to the student portal identification number. Parents have the opportunity to be a part of the SHAC (School Health Advisory Committee), EPIC (Elementary Parent Involvement Committee), and CIC (Campus Improvement Committee). Parents also have the opportunity to attend school activities with their child whether it be sports, elementary programs and/or activities.

- -Provide materials and training to help parents work with children to improve achievement
- -Educate teachers and relevant staff in value and utility of communicating with parents as equal partners
- -Coordinate/integrate parent involvement programs, as feasible
- -Ensure info related to school/parent programs, meetings, activities are provided in language/format understood
- -Provide other reasonable support for parental involvement activities

Accessibility[ESSA Sec. 1116(f)] Parents and students have equitable access to important parent/student information on the school website in multiple languages and inside the door of all campuses in the district in paper form.

State of Texas Student Eligibility Criteria:

A student under 21 years of age and who:

- 1. Is in prekindergarten grade 3 and did not perform satisfactorily on a readiness test/assessment given during the current school year.

- 12. Is homeless
- 13. Resided in the preceding school year or resides in the current school year in a residential placement facility in the district, including a detention facility, substance abuse treatment facility, emergency shelter, psychiatric hospital, halfway house, or foster group home.

Junction Independent School District SCE Budget: \$562,068

At Risk students are identified by the campus coordinator using Texas Education Agency PEIMS criteria; a student at-risk of dropping out of school who is under age 21 and who meets one of more of the 13 criteria delineated in Texas Education Code 29.081 and redefined by Senate Bill 702 as the sole criteria in identifying students who are eligible to receive intensive, supplemental services.

At Risk students are released using the following criteria:

Decisions for exiting a student from SCE program are based upon the review of student data and may include the following under the different criteria:

Criteria #2 – Maintenance of passing grades with a score of 70 or greater

Criteria #4 – 110% level of satisfactory performance on state assessments

Criteria #5 – Condition of pregnancy or parental status

Criteria #6 – Alternative education program placements timeframe

Criteria #10 - LEP status

Criteria #13 – Residential placement status

The following criteria are automatically "exited" at the end of each school year.

Note: If students are identified under multiple criteria, only the criteria below will show an annual exit date (last day of the regular school calendar).

Criteria #1 - PK-3rd Readiness assessment

Criteria #8 – On parole, probation, or deferred prosecution

Criteria #11- In the custody or care of Dept. of Protective/Regulatory Services

Criteria #12- Is identified homeless under the McKinney-Vento Homeless Assistance Act

Students are never released when they have been identified as at risk under the following criteria:

Criteria #3 – Not advanced from one grade level to the next

Criteria #9 – Was previously reported through PEIMS to have dropped out of school

The comprehensive, intensive, accelerated instruction program at this district consists of after school tutorials, intervention class time and additional reading and math labs for extra instruction to reduce the risk for students dropping out of school.

Upon evaluation of the effectiveness of this program the committee finds that the extra learning opportunities and proper counseling and teacher support provides the extra support to prevent students from dropping out of school.

Junction ISD established school wide planning teams that conducted a comprehensive needs assessment using the Texas Academic Performance Reports (TAPR) data such as demographics, academic performance, attendance rates, and college readiness. Federal Accountability Data for AYP, disaggregated STAAR data, District PEIMS reports, Benchmark testing data, parent participation records, teacher retention data, special education data, T-TESS data, and district parent/teacher/student surveys were also observed.

Comprehensive Needs Assessment Summary

District Profile

Junction ISD is located in Junction, Texas. Junction is a tourist community. As of the census of 2019, there are approximately 2,507 people and 1,331 households within the city. The racial makeup of the city is 91.2% White, 2.6% African American, 1.8% Native American, 0% Asian, 9.1% from other races, and 4.7% from two or more races. Hispanics or Latinos of any race were 32.1% of the population.

Based on the 2018-2019 Texas Academic Performance Report (TAPR) District Profile there are 605 total students enrolled. The racial makeup of the school is White 60.2%, African American 0.0%, Hispanic 38.5%, Asian 0.3%, and Two or More Races 1.%. There are 65% of students that are Economically Disadvantaged, 3.3% are English Language Learners (ELL) and 35.0% are At-Risk.

The population of Junction, Texas is not increasing and the Junction ISD total population is not increasing, but the demographics are changing each year. The Economically Disadvantaged, Special Education, and At-Risk numbers have increased. Identification of increased numbers in these areas creates the need for Junction ISD to find ways to promote student success in these areas.

Data Reviewed

Junction ISD established school wide planning teams that conducted a comprehensive needs assessment using the Texas Academic Performance Reports (TAPR) data such as demographics, academic performance, attendance rates, and college readiness. Federal Accountability Data for AYP, disaggregated STAAR data, TELPAS, District PEIMS reports, Benchmark testing data, parent participation records, teacher retention data, special education data, T-TESS data, professional development records, and district parent/teacher/student surveys were also observed. (*Quantitative and Qualitative data was included)

Findings/Conclusions

Junction ISD found the following:

Student Achievement

Junction ISD has a earned a 2019 academic rating of B on the State's A-F Rating System. The Middle School receiving three distinctions, science, social studies, and post-secondary readiness, and the High School receiving two distinctions in ELAR and science.

Data will drive instructional and staffing decisions as Junction ISD finds equitable ways for all students to achieve success. The data will also drive the Special Ed identification process. Qualitative data collection using parent, community, teacher and student surveys found needs in counseling (career education, bullying, and mental health), discipline and professional development.
